Jotun Anti-skid

Product description

This is aluminium oxide grains, designed to be spread into the last coat in a non-skid system. Available in extra coarse, coarse, medium and fine particle sizes. Suitable as anti-skid material in a wide range of coating systems in atmospheric environments. Suitable on any type of surface, depending on the specific coating system.

Typical use

Can be used on helidecks, walkways, ramps, weigh bridge decks, decks in general where non-slip properties are required. The spreading is to take place in the wet film during application.

<th>Shelf Life</th>
</tr>
</thead>
<tbody>
<tr>
<td>Jotun Anti-skid</td>
<td>48 month(s)</td>
</tr>
</tbody>
</table>

In some markets commercial shelf life can be dictated shorter by local legislation. The above is minimum shelf life, thereafter the paint quality is subject to re-inspection.

Caution

This product is for professional use only. The applicators and operators shall be trained, experienced and have the capability and equipment to mix/stir and apply the coatings correctly and according to Jotun's technical documentation. Applicators and operators shall use appropriate personal protection equipment when using this product. This guideline is given based on the current knowledge of the product. Any suggested deviation to suit the site conditions shall be forwarded to the responsible Jotun representative for approval before commencing the work.

Health and safety

Please observe the precautionary notices displayed on the container. Use under well ventilated conditions. Do not inhale spray mist. Avoid skin contact. Spillage on the skin should immediately be removed with suitable cleanser, soap and water. Eyes should be well flushed with water and medical attention sought immediately.

Colour variation

Products primarily meant for use as primers and antifoulings may have slight color variations from batch to batch. Such products may fade and chalk when exposed to sunlight and weathering.
